DETAILED ACTION

Allowable Subject Matter

1. Claims 1-2, 4-5, 7-13, 15-16, 18-22, 34-35, 37-38 and 40-53 are allowed. The following is the examiner's statement of reasons for allowance: Claim 1 is directed to a system for encoding on a publication, such as a book, magazine, newspaper, etc., can be directly scanned by the embedded scanner, and the information such as bar coding, OCR, image recognition or the like, can be decoded to automatically identify the document. The identification allows for obtaining of desired content from a source other than the identified publication by utilizing multiple levels of searching to locate the content. The most pertinent prior art is Clark et al. (US Patent Number 7,188,311). The prior art made of record does not disclose sequentially searching at multiple levels of storage devices in order to locate the document and indicate of a null result for the decoded book identification relative to storage devices. The Examiner finds no reason or motivation to combine the above references in an obviousness rejection thus placing the application in condition for allowance.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, would preferably accompany the issue fee. Such submission should be clearly labeled "Comments on Statement of Reasons for Allowance."
